- EMAIL: [thenursingscholarsociety@gmail.com](mailto:thenursingscholarsociety@gmail.com)
- Website: <http://thenursingscholarsociety.org/>

# History of Nursing Scholar Society

The concept of Nursing Scholar society was the coined by Dr. Suweresh Narula Khanna. She from her training period since 60 plus years ago based upon many humiliating and great experiences during nursing career which got more strong and her inner idea of having platform where nurses from all spheres of nursing profession can be recognized and patted on their backs or uplifted their morale especially in last year's COVID19 pandemic crisis which the whole globe faced. This vision of seeing our nursing profession at the top of dignified, respected as well competitive salary wise status like other health professionals has become reality now. This small effort in fulfilling the vision wouldn't have been possible without Founder NSS president Prof. Dr. Binu Joe who had similar vision and philosophy to make this vision a reality.

# Vision of Nursing Scholar Society (NSS)

“The vision is simple and straight forward and that is **Care of the Caregiver** and felicitation of their dedicated hard work by getting them into Hall of Fame of this society. When vision becomes a reality, the professional satisfaction and pleasure is immense & beyond description. The chapters in each state and city of India remains the vision to be seen in reality in my lifetime.”

# Philosophy of Nursing Scholar Society (NSS)

The philosophy comes out of conception or vice versa. When we have thoughts, knowledge, values, ideas, reason, language, mind, existence as problems, the philosophical study resolves these. Based upon these factors; our NSS philosophy emerged with the need for care of the care giver and recognition of the value of dedicated, compassionate, credible services of individual registered nurses from ANM upward degree holders from INC recognized schools, colleges & universities. Including students is based upon the philosophical idea of preparing future potential nursing leaders to carry the torch of light. Inducting non nursing individuals in Hall of Fame as honorary lifetime members is strongly based upon the idea of community involvement and making nursing & nurses visible. Each inducted member has taken oath to uphold the society legions and enhance the positive image of dignified nursing profession.

# OBJECTIVES OF NURSING SCHOLAR SOCIETY

1. Encourage & recognize Nurses scholarly skills and activities.
2. Form & establish chapters in every part India by assisting the desiring colleges or hospitals or group of 3 to 4 colleges or hospitals in any city or state of India.
3. Hold at least two scholarly events yearly.
4. Induction ceremony in Hall of Fame and conducting lifetime achievement award certificate ceremony at each event.
5. Get affiliated with NGOs and societies of mutually interested across the globe.
6. Do presentations of scholarly papers at least once in a year.
7. Get senior inducted students involved as a non-voting member in all existing committees.
8. Promote professional nursing activities and help Nurses to lead a quality life.

# Mission of Nursing Scholar Society

- The mission of the nursing scholar society is to encourage and recognize the scholarly skills of nurses in writing, speech, leadership or in community services.
- The nurses must be license holders starting from ANM upward to Doctorate programmes and from INC recognized programs. They shall be trained in India and now may be residing abroad. The society shall include the global nursing profession and non-nursing and as nursing friendly members to be inducted as in an honorary capacity member in Hall of Fame of NSS. The nurses are from all spheres of nursing profession, such as education, clinical practice, administration, community service, and midwives. The mission of NSS is to get affiliated with all other nursing NGOs globally. This mission includes students of senior most class of each degree/certificate/diploma program existing in education area.
- The total number is limited to ten in each induction event. They will be in honorary associate member capacity in HOF until they transfer to RN license holder members.
- caring, compassion, ethical values and exceptional healthcare practices
- client-centered helping relationships and advocacy
- accountability and responsibility for evidence-based practice
- continuous personal and professional development of self and others
- collaboration and innovation
